Travel Max Guide is the inception of the First Act Nepal (FAN). Our team is working for a good cause. The reason is simple, we do love to share what we have. We are strongly guided by the principal, "Love Your Neighbor as Yourself." So we do.

Travel Max Guide supports a certain income to FAN. It's a team working for the children of Nepal. Support for the child sponsorship program. It's just a small contribution to our children who are longing for love and support. If our small contribution can make things different, why not? to be a contributor. We are looking to build our communities bigger where everyone can get an opportunity. So let's share what we can, let's do what we suppose to do. Listen from your heart. Ok fine, finally it's time for action.
